SUGGESTIONS AND RECOMMENDATIONS

The video recording must be of good quality (from 720 p), with minimal background noise. Recommended video format is MP4 or wmv, shooting parameters at least HD 1080x720. The quality of recording does not affect the jury’s assessment, however, non-compliance with these parameters may make it difficult to listen. If the program is being recorded with an accompanist in a small room (not in a concert hall), it is advisable to use a lavalier microphone for vocalists, place an external microphone closer to the soloist, or use multiple microphones. It is better to first make test recordings of fragments of the performance from different points and/or from different microphones in order to choose the optimal parameters for avoid problems with reproducing of the final recording. If shooting by a smartphone orient it horizontally. Please collect all the recordings of one participant in one file in order to listen to the entire program from one link.

The competition is held by video recording in one round. Competitor can participate in several nominations; an application form must have all programs of performances with the obligatory indication of the nomination. The duration of the performance record cannot be less than that specified in the competition requirements. The time of the program may be exceeded if it includes pieces of large form (sonata in four movements, variations, concert, quartet, etc). The video recording of the competitor must be presented as a complete competitive or concert performance.

The International Jury evaluates the participants’ performances. The Jury can award the same ranking to several contestants. The final places (titles) of the contestants are determined on the basis of the arithmetic mean score, taking into account all the Jury’s assessments. In disputable cases, the final decision is made by the Chairman of the Jury. The decisions of the Jury are final and irrevocable.

Competitors receive the title of the Winner of the international competition (of different ranks), Diploma winner (honorary diploma owner) or a participant's diploma. Winners of the first prizes and the Grand Prix (only in eldest groups) will be recommended for participation in the concert programs of international forums.

The Organizing Committee has the right to post a video of the competitor on third-party web resources. The best performances will be published on the youtube page of the “Art and Education in the XXI Century” Association.
